Contents

No. 1 *FEBRUARY 1976* PAGE

Myocardial infarction in car assembly workers
P. J. Baxter, W. G. White, C. F. B. Sanderson, G. M. Barnes, C. S. Baxter, and R. M. Acheson 1
Absence attributed to sickness in oil tanker crews
J. T. Carter 9
Significance of irregular small opacities in radiographs of coalminers in the USA
H. E. Amandus, N. L. Lapp, G. Jacobson, and R. B. Reger 13
Follow-up of ventilatory lung function in a group of cement workers
M. Šarić, I. Kalačić, and A. Holetič 18
Induction of fibrogenesis by lung antibody-treated macrophages
D. M. Lewis and R. Burrell 25
Biochemical changes during the initial stages of industrial lead exposure
G. I. Benson, W. H. S. George, M. H. Litchfield, and D. J. Seaborn 29
Activity of erythrocyte δ-aminolevulinic acid dehydrase and its change by heat treatment as indices of lead exposure
M. Chiba 36
Plasma concentrations of the oxime Pralidoxime Mesylate (P2S) after repeated oral and intramuscular administration
P. Holland and D. C. Parkes 43
Notes and miscellanea
Are glass fibres carcinogenic to man? A critical appraisal
J. Milne 47
Book review 49
Information section 50

No. 2 *MAY 1976*
Accidental exposure to isocyanate fumes in a group of firemen
A. T. Axford, C. B. McKerrow, A. Parry Jones, and P. M. Le Quesne 65
Neurological complications after a single severe exposure to toluene di-isocyanate
P. M. Le Quesne, A. T. Axford, C. B. McKerrow, and A. Parry Jones 72
Blood lead and erythrocyte δ-aminolevulinic acid dehydratase levels in Manchester taxi drivers
M. L. H. Flindt, E. King, and D. B. Walsh 79
The *in vitro* effect of zinc on the inhibition of human δ-aminolevulinic acid dehydratase by lead
E. A. Border, A. C. Cantrell, and T. A. Kilroe-Smith 85
Different behaviour of inorganic and organic mercury in renal excretion with reference to effects of D-penicillamine
T. Suzuki, S. Shishido, and N. Ishihara 88
Shoe-makers' polyneuropathy in Italy: the aetiological problem
G. Abbritti, A. Siracusa, C. Cianchetti, C. A. Coli, F. Curradi, G. F. Perticoni, and F. De Rosa 92
Absorption of cumene through the respiratory tract and excretion of dimethylphenylcarbinol in urine
W. Seńczuk and B. Litewka 100
Ostwald solubility coefficients of some industrially important substances
R. J. Sherwood 106
A proportional study of cancer registrations of dockyard workers
K. P. S. Lumley 108
Thirty-two cases of mesothelioma in Victoria, Australia: a restrospective survey related to occupational asbestos exposure
J. E. H. Milne 115
Notes and miscellanea
Blood carbon monoxide levels as a function of daily cigarette consumption and physical activity
L. H. Hawkins 123
Lead and criminality
M. Lob and P. Desbaumes 125
Release of histamine from lung tissue *in vitro* by dimethylhydantoin-formaldehyde resin and polyvinylpyrrolidone
P. J. Nicholls 127
Book reviews 130
Information section 134

Contents

No. 3 *AUGUST 1976*

PAGE

Predictions of mortality from mesothelial tumours in asbestos factory workers
M. L. Newhouse and G. Berry .. 147
Monitoring liver disorders in vinyl chloride monomer workers using greyscale ultrasonography
D. M. J. Williams, P. M. Smith, K. J. W. Taylor, I. R. Crossley, and B. W. Duck .. 152
Loss of pulmonary elastic recoil in workers formerly exposed to proteolytic enzyme (alcalase) in the detergent industry
A. W. Musk and B. Gandevia .. 158
Byssinosis: a follow-up study of cotton ginnery workers in the Sudan
M. Khogali .. 166
Acute inhalation toxicity of cotton plant dusts
R. Rylander and M.-C. Snella .. 175
Energy expenditure and physiological performance of Sudanese cane cutters
C. T. M. Davies, J. R. Brotherhood, K. J. Collins, C. Doré, F. Imms, J. Musgrove, J. S. Weiner, M. A. Amin, H. M. Ismail, M. El Karim, A. H. S. Omer, and M. Y. Sukkar .. 181
Urinary non-precipitable lead in lead workers
M. Kawai .. 187
Erythrocyte fluorescence and lead intoxication
K. G. A. Clark .. 193
Notes and miscellanea
Parosmia and hyposmia induced by solvent exposure
E. A. Emmett .. 196
Book reviews .. 199
Information section .. 202

No. 4 *NOVEMBER 1976*

The biology of talc
G. Y. Hildick-Smith .. 217
Occupational and regional associations of death, disablement, and sickness absence among Post Office staff 1972-75
P. J. Taylor .. 230
Sickness absence of lead workers and controls
H. S. Shannon, M. K. Williams, and E. King .. 236
Sickness absence caused by chest diseases in relation to smoking and chronic bronchitis symptoms
W. Jędrychowski .. 243
A survey of occupational cancer in the rubber and cablemaking industries: analysis of deaths occurring in 1972-74
A. J. Fox and P. F. Collier .. 249
Farmer's lung disease in Somerset
J. V. S. Pether and F. B. Greatorex .. 265
Excretion of ^{35}S-Tobias acid (2-naphthylamino, 1-sulphonic acid) by the rat after oral and intravenous administration
M. A. Marchisio, M. Dubini, G. Serra, T. Mennini, and L. Manara .. 269
Notes and miscellanea
Methyl chloride poisoning in four members of a family
L. Spevak, V. Nadj, and D. Fellé .. 272
Occupational health and safety in Great Britain 1974
M. A. Cooke .. 274
Book reviews .. 279
Information section .. 284
Index .. 298

Index to volume 33, 1976

A

ABBRITTI, G., SIRACUSA, A., CIANCHETTI, C., COLI, C. A., CURRADI, F., PERTICONI, G. F., and DE ROSA, F.: Shoe-makers' polyneuropathy in Italy: the aetiological problem, 92

Absence attributed to sickness in oil tanker crews, 9

————death, disablement or sickness among post office staff 1972-75, occupational and regional absence, 230

————sickness, caused by chest diseases, relation to smoking and chronic bronchitis symptoms, 243

————sickness, of lead workers and controls, 236
